30th May – 3rd June
Half Term Closure

Holocaust Memorial Day, Wednesday 26th January

Holocaust education features significantly in the history curriculum at PGHS. Students in Year 9 are currently studying how and why the Holocaust happened, and as part of their unit on Germany 1919-1991, Year 11 students study the topic too. Each year, the Holocaust Educational Trust host a live webcast with a survivor on the anniversary of the liberation of Auschwitz.

This year, Eva Clarke gave a fascinating and articulate testimony of her experiences of the Holocaust and how her family had been brutally persecuted by the Nazi regime. Eva was born at Mauthausen concentration camp at the end of the war and only survived due to the liberation of the camp by the US army in April 1945. If you would like to hear Eva Clarke speak about her experiences during the Holocaust, follow the link to her full Oxford Union address in 2019: <https://www.youtube.com/watch?v=b3HmeidS8Z4>

Assemblies this week have been on the theme of Holocaust education and remembrance, with students learning the story of the evacuation of 300 Jewish children from Eastern Europe to Windermere in 1945. The children were survivors of many camps and had been tragically orphaned during the war. They were flown to Britain to start a new life after the war, and spent their first few months in the Lake District. If you would like to know more about this miraculous story, you can watch a fascinating BBC documentary here: <https://www.bbc.co.uk/programmes/m000dt7g> Alternatively, there was a dramatisation of the experiences of the Windermere children released in 2020: <https://www.imdb.com/title/tt10370380/>.

Year 7 Hereward the Wake Project

As part of their study of William I's conquest of England in 1066, year 7 students have been learning about Anglo-Saxon resistance led by legendary rebel Hereward the Wake. In lessons students discovered the causes of Hereward's rebellion against William in 1070 and the exciting story of how he was eventually betrayed by monks from a local monastery, surrounded by Norman knights and killed in dramatic fashion in the Fens. Students were given the homework task to create models, poems and artwork representing Hereward's epic resistance against William the Conqueror. Here is a selection of some of the best submissions, including a Hereward the Wake cake.

Lancaster University School of Mathematics (LUSOM) Lectures

As part of the Mathematics Department's continuing links with the Lancaster University School of Mathematics (LUSOM), students from years 7, 8 and 9 have been invited to attend a guest lecture on February 9th 2022 which will be presented by Emeritus Professor from Lancaster University called Richard Eglese.

Professor Richard Eglese will be delivering a lecture on using Mathematics to make better decisions, specifically regarding opportunities in Operational Research. The talk will introduce what is meant by Operational Research and related terms, such as Analytics. Examples will be given of the sorts of problems that are tackled in Operational Research and the types of organisation that can provide careers within this area. Professor Richard Eglese studied Pure Maths, Applied Maths and Physics at A level and went on to read Mathematics at Cambridge University.

The talk is aimed at all KS3 students to help understand the various opportunities that continuing to study Maths can bring.

This is an online talk. To attend, please register your details by following below link:

<https://go.cardinalnewman.ac.uk/form/lusomtalkmath>

Mr McVey's Mysterious Maths – January 2022

Happy New Year! Well done to those who completed the 'Christmaths' puzzles last month. Here is another round of mathematical teasers for you to get your teeth into. As ever, there will be a highly sought-after Head's Breakfast for students who email or bring me a correct written solution, complete with explanations to justify their answers. Good luck!

Puzzle 1 – Full Breakfast!

Out of 100 people surveyed, 86 had an egg for breakfast, 75 had bacon, 62 had toast, and 82 had coffee. How many people, at least, must have had all four items?

Puzzle 2 – Triangular torture!

What number should replace the question mark?

Puzzle 3 – Sequence of doom!

What number should replace the question mark?

Puzzle 4 – Property poser!

Erica's house is 10th from one end of the street and sixth from the other end. How many houses are there in the street?

Mr McVey, Mathematics Department

Hegarty Heroes

With the addition of Hegarty Maths to the Maths department, we are handing out rewards to those showing maximum effort into furthering their understanding. Below are the top 3 students for each year!

Year 7

<u>Name</u>	<u>Number of questions completed</u>
Amber S	1513
Lucie J	1027
Maisie B	1006

Year 8

<u>Name</u>	<u>Number of questions completed</u>
Chloe W	2700
Eden F	2371
Emerson W	1401

Year 9

<u>Name</u>	<u>Number of questions completed</u>
Victoria K	3129
Lojaina A	2332
Jennifer K	1193

Year 10

<u>Name</u>	<u>Number of questions completed</u>
Amirah P	1221
Olivia S	708
Isla S	692

Year 11

<u>Name</u>	<u>Number of questions completed</u>
Emma A	1099
Lily S	1088
Khadija B	1063

MONSTER QUIZ

Students across all years have been getting competitive in the Maths Department by growing and hatching monsters! The staff have been creating fun quizzes for end of topic competitions and students play the quizzes on the iPads or laptops. Students are put into teams and have to answer questions correctly to help feed and hatch their monster, which they see develop on the board. Winning teams are the most accurate, not necessarily the fastest team to create their monsters! It has been well received amongst the KS3 classes:

'Such a fun way to test our maths and play games.' Y8 student.

'I love seeing the monsters hatch on the big screen as I answer questions right.' Y7 student.

'It's fun not knowing which team you will be in and working together with my friends to grow the eggs.' Y7 student.

Mathematics staff have also been using Blooket and Kahoot in lessons which gets a very competitive atmosphere in class. The year 10s have been so keen to answer the maths questions correctly (so they can 'steal points' off each other!)

*Mrs Sweeney,
Curriculum Leader for Maths*

Cell-a-bration!

Year 7 have been learning about how living organisms are organised as one of the ten big ideas of science called Organisms. Part of this unit is about cells. These are the building block of living organisms and an important key concept in Biology. Each year, students are invited to make models of cells to further their understanding of them. This is always a popular homework task, usually resulting in all sorts of wonderful designs and tasty creations.

This year as a department, we decided to launch this as a competition. Students had to design and make a model cell using any material. They also had to label the cell. They had the choice of an animal and plant cell or any of the specialised cells that they have been studying.

The entries were most impressive with some made of balloons, wood, fabric, clay, fruit and cake, just to name a few. Judging the competition was extremely difficult due to the high standard of entries. Winners were chosen out of each science class and three overall winners chosen.

The science department would like to say a big thank you for all the entries. Here are all the class winners and the three overall winners:

1st place Unaysah P

2nd place Sania S

3rd place Hadia M

1st place Unaysah P

For her cake design and labels that contained her own well thought out descriptions of the functions of each part.

Brilliant Behaviour

This week, I'm paying tribute to the PGHS Class Charts stars! These students are in the top 20 from across the whole school and are notching up a very impressive number of positive points.

Getting an average of 5 or more positive points every week means that these students are working hard across all their subjects and being recognised for it by all their teachers. Maintaining this level of consistent enthusiasm for learning requires commitment and dedication and deserves special credit.

These students are well on their way to Ward Awards and Ramsdale All Rounders!

Head's Breakfast

Amelia Y (Year 8)

Excellent write up on the journey of an oxygen molecule using her own words and not the writing frame given. (Science)

Jasmine S (Year 8)

Excellent work on the journey of an oxygen molecule in science.

Lois W (Year 7)

Rocking Bedrock this week! (English)

Pixie H (Year 7)

An amazing example of resilience with Bedrock! (English)

Holly R, Faye S, Mia B (Year 7)

Created an outstanding and very ambitious project in RE to teach younger pupils about the 7 days of creation.

Head's Commendations

All of Mrs Honeyman's Year 11 Science Class (11S1)

Life Cycle of a star display.

Evelyn W (Year 7)

Evelyn went above and beyond for her RE homework. She created a brilliant, educational YouTube video to teach primary aged pupils about the 7 days of creation. Her effort was outstanding!

Esha C, Megan H, Aaminah A, Olivia S (Year 10)

An excellent piece of work on the flow of blood through the heart. (Science)

Abeeha F, Uswa H, Daren C, Athena T-S, Juliette B (Year 7)

Created an outstanding educational resource for primary aged pupils on the Christian creation story. (RE)

Chloe H, Erika J (Year 9)

Excellent Formative Assessment: The changes to religion in 21st Century.

Elsie B P, Willow H, Niamh D, Unaizah A, Natalia N, Maddie R, Jessica M, Libby H, Lucie J (Year 7)

Outstanding effort put into the RE creation homework task.

Lily T (Year 7)

Excellent Beethoven work. (Music)
